Ideation Phase
Define the Problem Statements

Date	19 September 2022
Team ID	PNT2022TMID00107
Project Name	AI-based localization and classification of skin disease with erythema
Maximum Marks	2 Marks

Who does the Problem Affect?	Common People with sensitive skin, People withgenetic disorder, Alcoholics, Drug addicts
What is the issue?	Type of skin rash caused by injured or inflamed blood capillaries. It usually occurs in response to a drug, diseaseor infection. Rash severity ranges from mild to life threatening. If a person develops a more severe form of erythema multiforme (erythema multiforme major), the condition can become fatal.
When does the issue occur?	Typically about two to three weeks' time is requiredbefore symptoms emerge, and three to four weeks before the symptoms are sufficiently irritating for the patient to see a doctor
Where is the issue coming?	Unhygienic areas, Place with no cleanliness etc
Why is it important that we fix the problem?	Milder cases go away in a few days or weeks without treatment. More serious cases requiremedication or hospital care.
